## OVERVIEW, MISSION, VISION & VALUES

### Who We Are

Landed is an education services company placing students with postgraduate and collaborative pathway courses that lead to enhanced international opportunities.

Our programs strive to blend online flexibility with on-campus instruction, allowing us to serve our clients with data-driven choices that suit their circumstances.

Focused on accessibility, collaboration, and bespoke education solutions, we partner with top institutions to ensure high standards of education.

Landed empowers students with the skills and knowledge to achieve their goals and thrive in new environments. Join us to transform futures through education.

## Our Mission

To empower individuals and families by providing end-to-end global pathways that are accessible, affordable, and high-quality, facilitating professional and personal growth, and enhancing long-term international opportunities.

## Our Vision

To be one of the leading global providers of innovative educational solutions, transforming lives through collaborative programs that bridge online flexibility with immersive on-campus experiences, fostering a world where education knows no borders.

## Our Four Core Values

- **Accessibility:** We believe in breaking down barriers to education by offering cost-effective programs that are within reach for aspiring learners worldwide.
- **Collaboration:** We value the power of partnership, working closely with education institutions to create seamless international experiences.
- **Personalisation:** We strive to understand the specific needs of each student, and provide custom-tailored pathways that are optimized for their desired personal and professional outcomes.
- **Community:** We foster a sense of belonging and support among our students, staff, and partners, creating a global network of stakeholders committed to mutual success and development.

## Pathway Programs

Through our valued partners, we offer a range of flexible, innovative study pathways from different disciplines, designed to make international education accessible, cost-effective, and convenient for busy 21<sup>st</sup> century global citizens.

### Program Structure

Our postgraduate pathway programs are structured to combine the benefits of both online and on-site learning, ensuring that students gain valuable academic and practical experience while saving on costs and minimizing disruption to their lives.

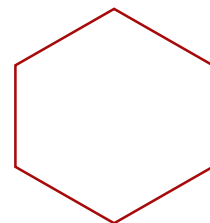

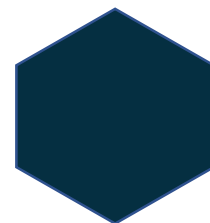

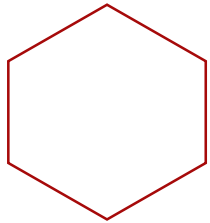

Typically, the programs are divided into two phases - one delivered remotely by a local partner institution, and one delivered on-site in the destination country.

### Stage 1

Students earn 60 credits through online courses with a distinguished partner institution, allowing flexibility and preparation time before making the move abroad.

### Stage 2

Students complete 120 credits during one year of on-site instruction in the destination country, where they gain practical experience, build professional networks, and prepare for future career opportunities.

## End-to-End Support Service for Clients

Landed offers a full A-Z support service, from initial consultation and application all the way through to post-graduation life and job settlement. Our goal is to make international transitions as seamless and as stress-free as possible, so you can focus on the things that really matter.

Online platform for ease of use

## Services for Partners

At its core, Landed's work is all about building international communities, and we extend the advantages of that process to our network as broadly as we can.

We provide a range of services and benefits to our valued university and institutional partners, making internationalization as straight-forward and beneficial as possible.

- International student recruitment
- Collaborative program management support
- Pre-program preparatory courses
- Digital and social marketing activities
- Professional development initiatives
- Webinars and workshops
- Presence at education fairs, conferences and agent events

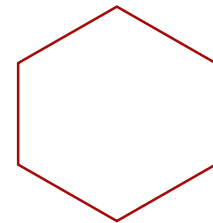

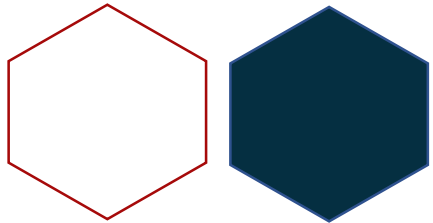

## Our Partners

At Landed, we believe in the power of collaboration to enhance educational experiences and create meaningful opportunities for students worldwide. Our partnerships with esteemed institutions are a testament to our commitment to academic excellence and innovation.

We value our partnerships, and are continually seeking to expand our network to include institutions that share our vision of transforming lives through education. Our collaboration with a number of higher education institutions in New Zealand is a proud example of how we strive to create impactful study experiences that benefit students, communities, and employers worldwide.

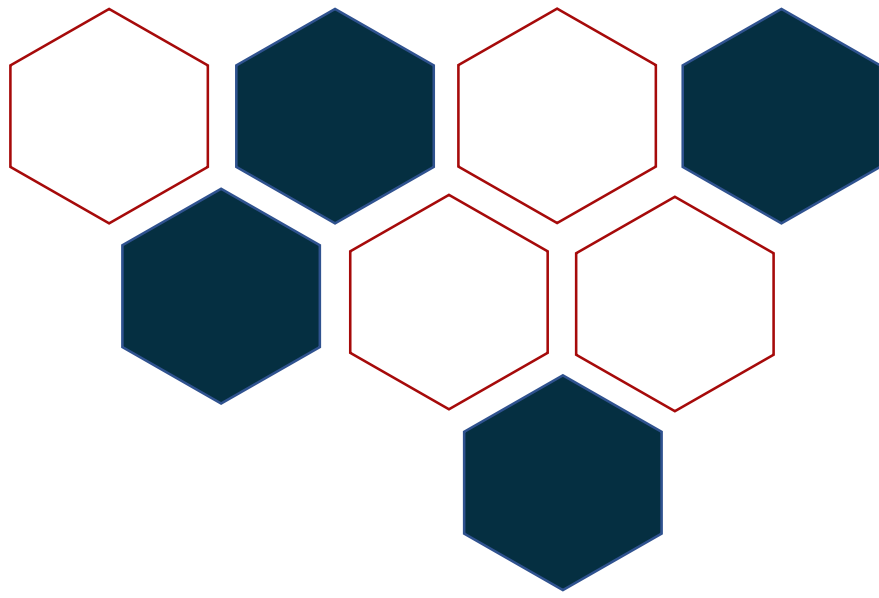

## Social Impact

At Landed, we're committed to social responsibility and strive to make a positive difference on both society and the environment through our programs, partnerships, public engagement, and day-to-day operations. The central pillars of our mission and vision are our efforts towards widening access and participation in higher education, as we seek to create opportunities for our students and their families to improve their quality of life.

We endeavor to identify and attract the most talented and hard-working stakeholders to our programs, regardless of their backgrounds, as we believe that education should never be a gated experience – instead it should be a pathway to improving lives, building brighter futures, and creating lasting social change.

To make international education as accessible as possible, our core offerings are programs that lower tuition fees, reduce the length of onsite study, and minimize the cost of living abroad.
